Email: Rohitsingh19061@gmail.com

Mobile: +91-9528847191

SKILLS

- **Languages:** C++, Python, Java, JavaScript
- **Frameworks:** PyTorch, TensorFlow, Scikit-learn, XGBoost, Transformers, spaCy
- **Tools:** Git, GitHub, Docker, Kubernetes, MySQL, MongoDB
- **Soft Skills:** Problem-Solving, Analytical Thinking, Team Collaboration

INTERNSHIP

AI Intern – InternsElite | [Certification](#)

Dec 2023 - March 2024

- Enhanced AI-driven automation and improved internal prediction workflows.
 - Developed ML workflows involving feature engineering, preprocessing, and model tuning.
 - Improved prediction accuracy and stability for internal business workflows.
 - **Tech Used:** Python, Scikit-learn, Pandas, NumPy, C#, .NET, React.js, Redux

PROJECTS

- **A desktop-based language translator application** | [GitHub](#) Feb 2025 - April 2025
 - Built a user-friendly desktop translator to aid travelers in language communication
 - Developed “AI Travel Translator” using Python and Tkinter/ttk, with custom UI, language dropdowns and translation support.
 - Enabled translation of user-input and preset travel phrases into 100+ languages, improving accessibility for multilingual users.
 - **Tech Used:** Python, Scikit-learn, Pandas, Tkinter/ttk, googletrans API.
- **Real-Time Process Monitoring Dashboard** | [GitHub](#) Oct 2024 - Dec 2024
 - Built a real-time system monitoring tool for tracking CPU usage, active processes, and system performance.
 - Developed a command-line monitoring tool in Python using psutil and standard libraries.
 - Enabled users to monitor CPU usage and identify top resource-consuming processes in real time.
 - **Tech Used:** Python, psutil, datetime, os, time

TRAINING

- **Machine Learning Made Easy: From Basic to Advanced** | [Certification](#) June 2025 - July 2025
 - Gained basic understanding of core ML algorithms and workflows (Supervised & Unsupervised learning, classification/regression, data preprocessing, evaluation).
 - Built end-to-end ML pipelines including data cleaning, feature engineering, model building, and evaluation.
 - Proficient in ML tools / libraries (e.g. Python + ML libs) and basic data handling — ready to build on this foundation for real-world tasks.

CERTIFICATES

- Introduction to Software Engineering | [Certification](#) March' 2026
- ChatGPT-4 Prompt Engineering & Generative AI | [Certification](#) Sep' 2025
- Artificial Intelligence Course – MyCaptain | [Certification](#) Dec' 2024

ACHIEVEMENTS

- Solved 500+ Data Structures & Algorithms problems across LeetCode, Neocolab and Codeforces,
- Participated in Hackathons to Strengthen problem-solving and teamwork skills.

EDUCATION

- **Lovely Professional University** Punjab, India
 - Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.2.** August 2023 - Present
- **Army Public School No.2** Roorkee, Haridwar
 - Intermediate; **70%** April 2022 - March 2023
- **Army Public School No.2** Roorkee, Haridwar
 - Matriculation; **80%** April 2020 - March 2021
